Location: Waipahu
Job ID: 2020-05
Area of Interest: Engineering and/or Construction Inspection
Job Type: Full Time
Education: 4 Year College Degree
Posted Date: May 14, 2020

Geolabs is currently offering a great opportunity for a responsible, dedicated individual to join our operations as an Engineering Technician/inspector.

Job Responsibilities:

Assignments will include, but are not limited to the following:

- Perform a wide range of inspection functions on construction projects that involve primarily pavement, site grading, major structures, and/or geotechnical work.
- Review construction specifications and plans.
- Perform daily field tests of different soil types
- Prepare and submit data and observations in the forms of digital reports to reflect results of daily field work and inspection.
- Communicate with Project Engineers, Contractor, and others as applicable regarding construction site, project requirements, and testing; observations and inspection requirements and results.
- Perform laboratory tests on soils, aggregates, concrete and other materials according to standard specifications

Job Requirements:

- 3 to 5 years of experience in related construction field work that involves materials testing, surveying, inspection, and/or management of pavement, site grading, structure, or geotechnical work
- ACI and/or NICET Levels is a plus.
- Working knowledge of Microsoft Office programs (Word, Excel, Outlook, etc.)
- Able to work overtime hours (including evenings and weekends).
- Valid driver's license and clean abstract

The successful candidate will have strong organizational skills; possess problem solving abilities and keen mathematical and analytical aptitude. The ability to work in a fast-paced, team environment while maintaining strict quality standards.

Physical Demand:

- Regularly required to stand, observe, walk and talk or hear, use hands and arms to push and pull. Lift and/or move at least 50 pounds and have peripheral vision.
